THE AFRICAN FAUNA

COLORING BOOK

Fauna means the animal life present in a particular region

Bring out your best moods with these color pages created from the animals of African. Regardless of whatever colors you fancy, all that matters is that it's the color that brings out your best self. Each page offers a unique opportunity to relax, unwind and bring vibrant life to these illustrations.

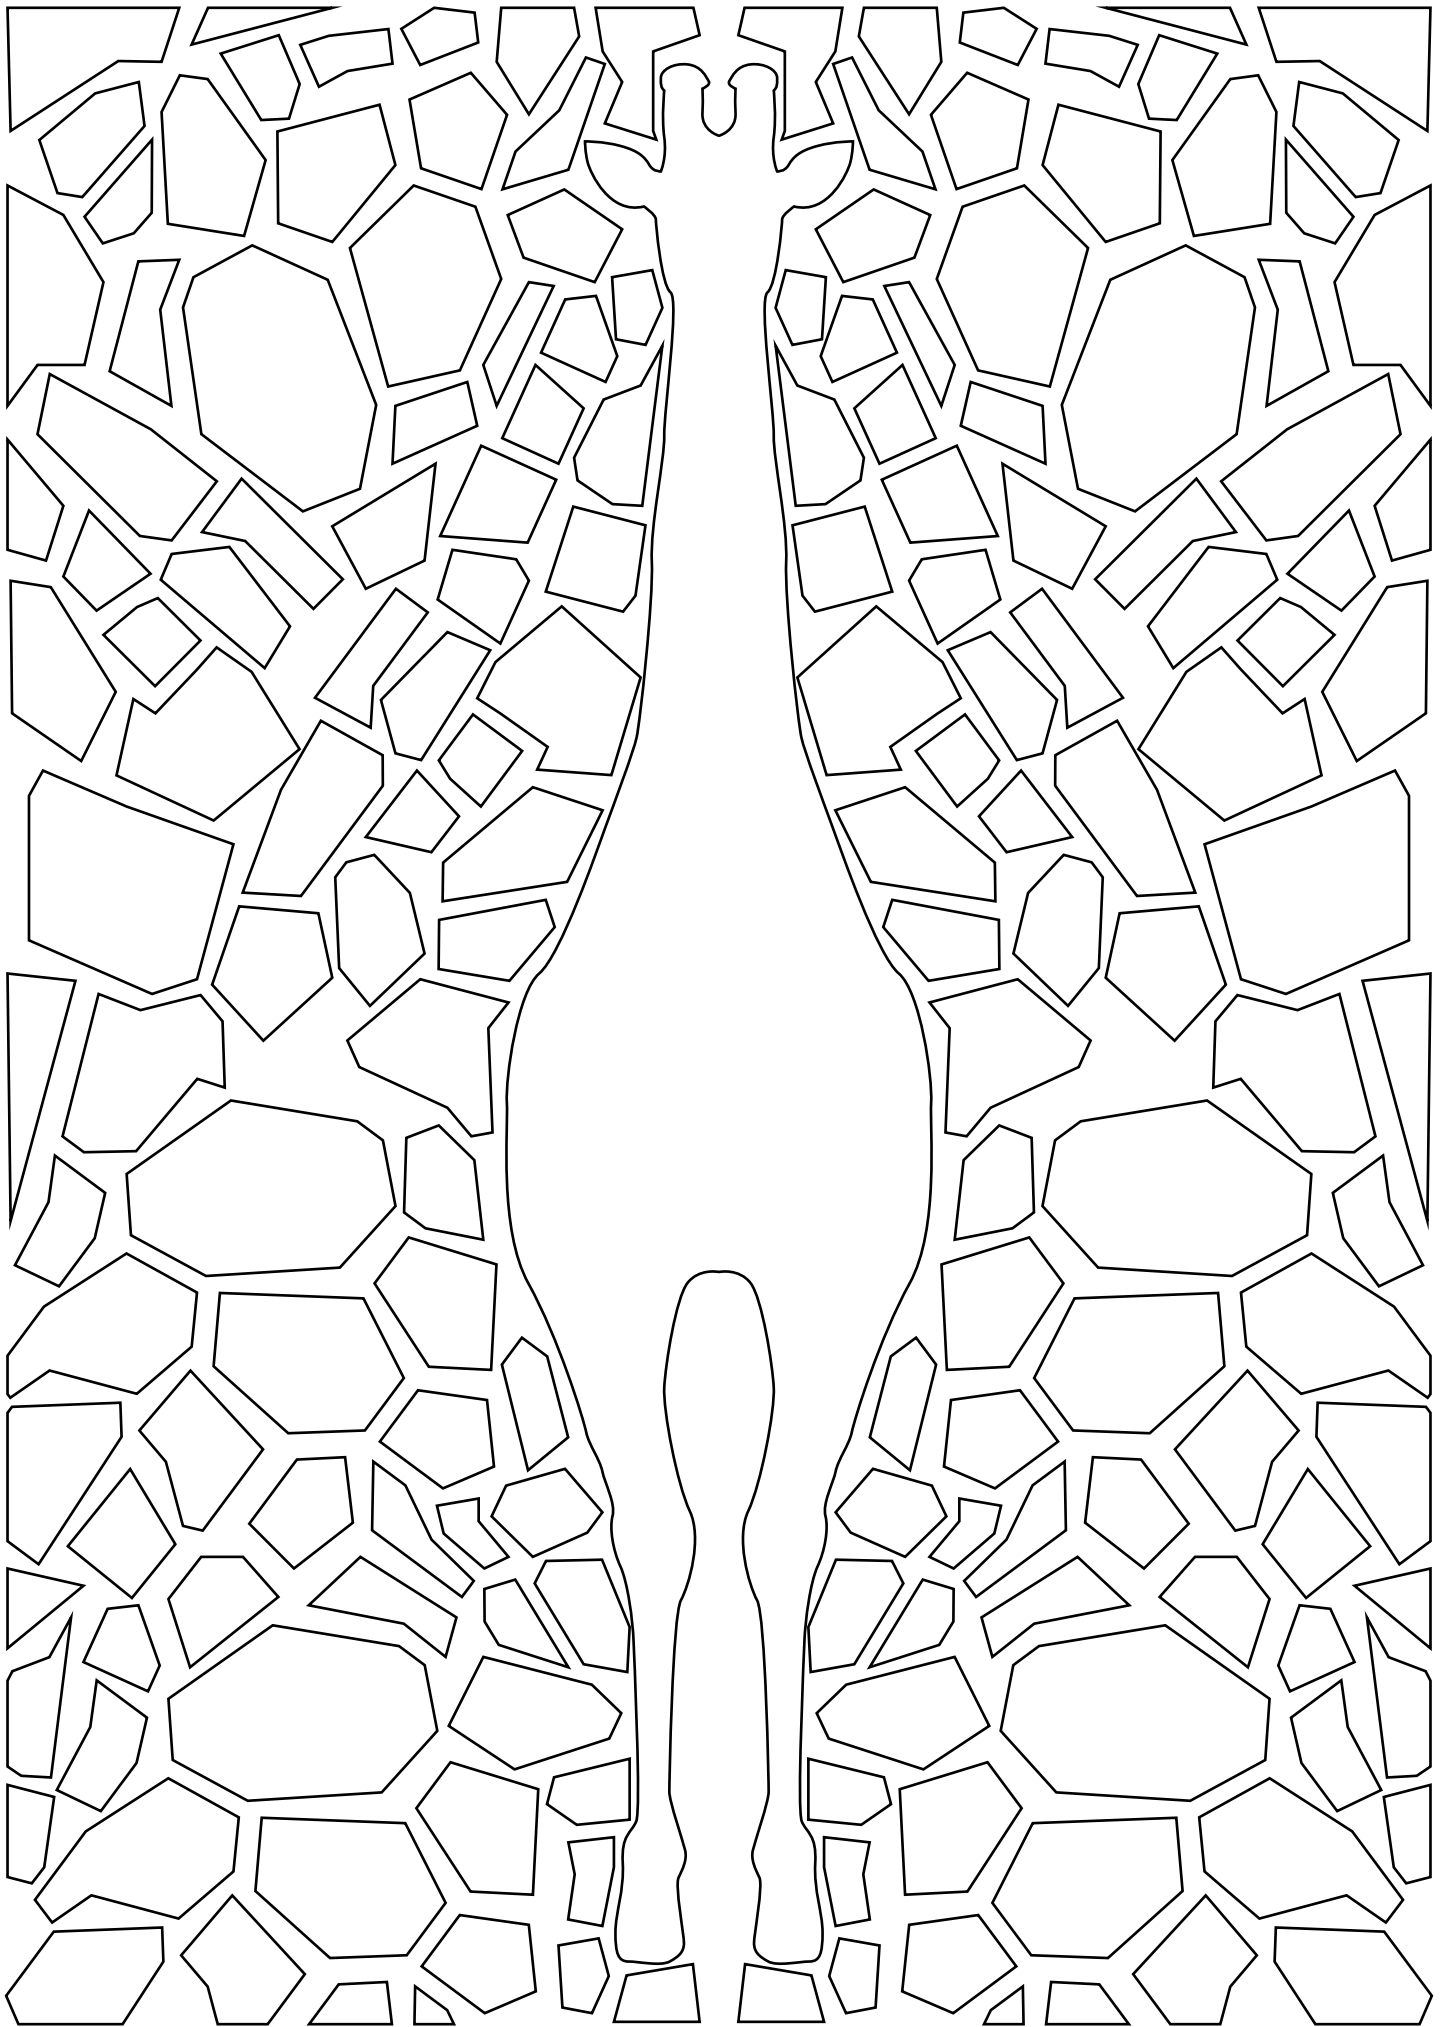

Ages 12+

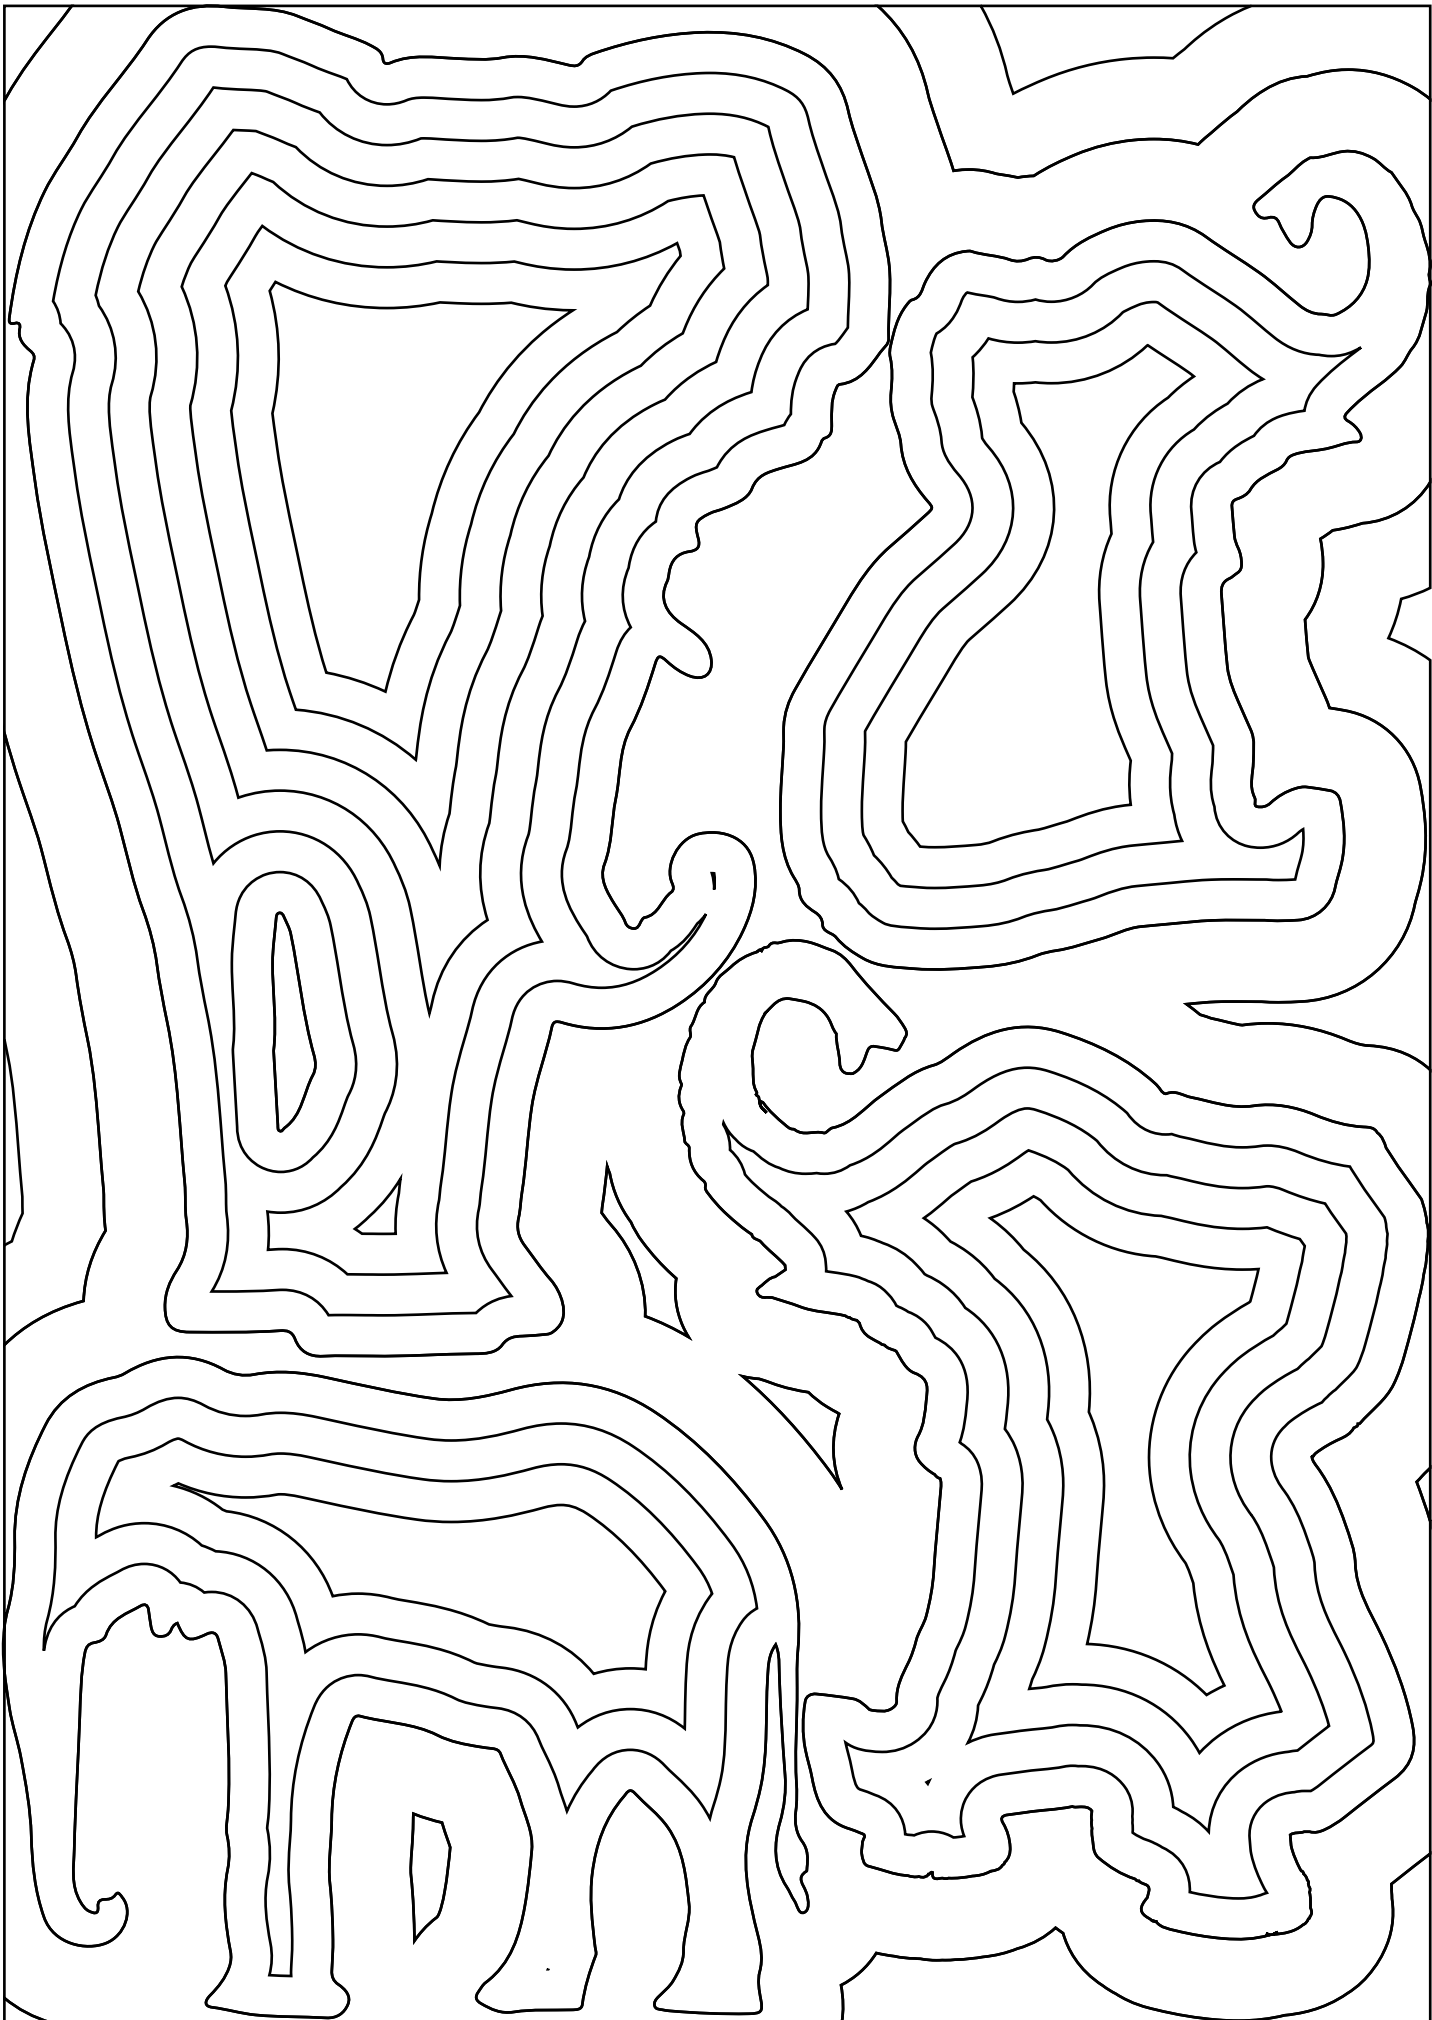

This coloring book contains the following illustrations:

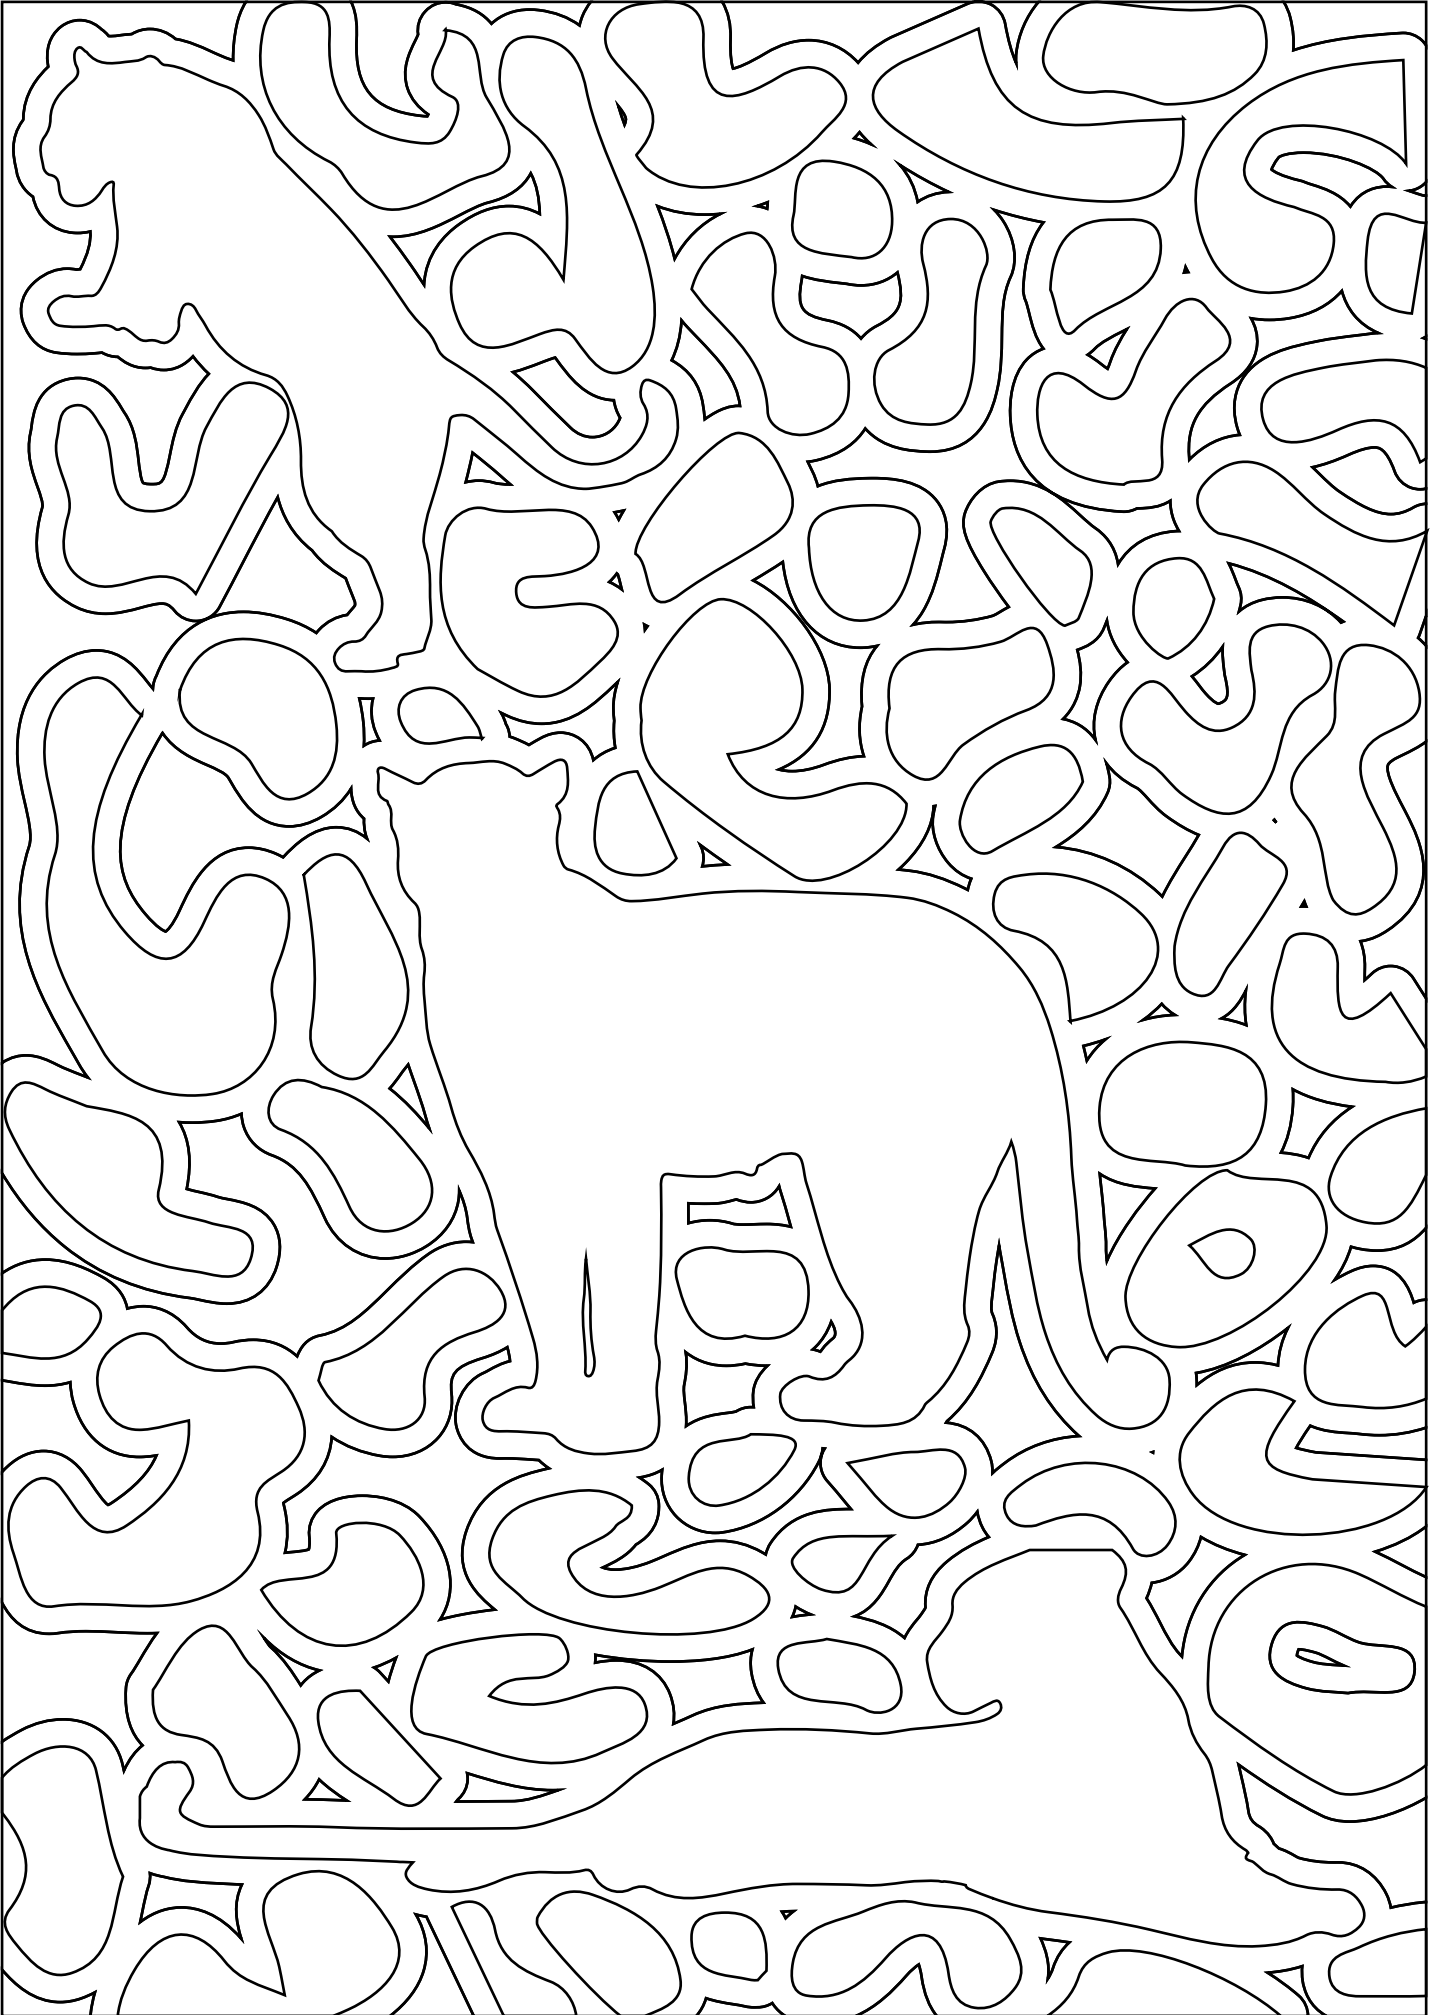

The Antelope	Almost all antelope are social animals, living in herds.
The Zebra	A zebra's stripes are like human fingerprints. Every zebra has a unique stripe pattern.
The Giraffe	Their patches tell them apart. No two giraffes have the same pattern.
The Elephant	They're the world's largest land animal.
The Leopard	Leopard spots are called rosettes
The Lion	A group of lions, also called 'a pride', often roar together to mark their territory
